NOAA's Office of Response and Restoration (OR& R) provided important information to aid in tracking the path of wind turbine blade parts after the offshore wind energy company, Vineyard ...

On Saturday, July 13, a newly installed turbine at the Vineyard Wind farm started undergoing routine testing before it could send power to the grid. It had been operating for six hours ...

The debris had fallen from a damaged turbine blade at the nearby Vineyard Wind project. The part, made and installed by GE Vernova, had broken three days earlier, and no one really knew ...

A massive wind turbine blade shattered offshore Massachusetts causing extensive debris, which shut down beaches on Nantucket Island and caused serious concern to fishermen, who ...

PDF | The objective of this work was to design and build a wind turbine which can be used to power small street lights.

Through precise wind turbine blade repair, technicians can clean the corroded areas, apply anti-corrosion treatments, and reseal the surface to extend the blade's operational life.

People in the area said they felt their homes shake when the machinery fell into a cranberry bog. The blade of a wind turbine broke off the structure in southeastern Massachusetts on ...

In what appears to be a remarkable coincidence, lightning apparently struck the remains of the Vineyard Wind turbine blade that crumbled into the ocean last summer.

The broken blade, on Vineyard Wind turbine AW38, manufactured at the troubled Canada plant, snapped on July 13 during routine testing. In August, Vineyard Wind and GE Vernova, the ...

The wind turbine street light blade is broken

A Vineyard Wind turbine was undergoing testing Saturday when one of its 350-foot blades broke, a company spokesman said Tuesday. The turbine's manufacturer, GE, is conducting a review ...
