GENKX specializes in mobile battery energy storage systems, offering both low and high voltage solutions. Our compact, high-density designs ensure reliable power in off-grid and remote areas.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

The MBE30 provides three-phase power output for mobile power applications with the advantage of zero sound and zero emissions. When connected to a compatible diesel generator, it creates a hybrid ...

The eSpire 306 is Fortress Power's flagship commercial energy storage system, offering up to 554 kWh of capacity and advanced control features for grid support, peak shaving, and backup power.

Empower your operations with Topband's mobile energy storage system and portable energy storage solutions. Our energy storage cabinets and energy storage battery cabinets deliver ...

These 480V 3-phase solutions act like a powerful UPS integrated directly with your optional solar PV array. We specialize in scalable, 480 VAC storage systems ranging from 42 kWh up to 360 kWh, ...

With its high-capacity 207 kWh storage and a powerful 66k inverter, the GRIZZLY System ensures seamless power supply, supporting heavy machinery and critical industrial operations.

Explore the eSpire Mini: a turnkey energy storage solution for microgrid, backup, and off-grid applications in residential or C& I projects.

Three-phase mobile energy storage battery cabinet for power stations

Suitable for advanced power supply systems. This 40ft energy storage container features LiFePO₄ battery modules with long cycle life and robust safety. It supports modular expansion, remote ...
