Aptera is the world's first Solar Electric Vehicle that requires no charging for most daily use - giving you the freedom to do more with less impact on the planet.

At CES 2025, attendees got to ride in the most radical electric vehicle concept yet: a three-wheeled, solar-powered autocycle from California-based startup Aptera.

Aptera, a startup from California, hopes to finally start production of its solar-powered EV later this year with a starting price of \$40K. The three-wheeler achieves a claimed 400-mile range...

With 3x 240W portable solar panels, enjoy effortless setup and reliable energy harvesting to power your RV's electrical system or camping gear. Built for resilience, its UPS-grade battery and ...

Explore the best 3 Best Solar Generators on Wheels to power your adventures with expert recommendations.

The US startup Aptera deploys embedded solar panels to raise the bar on autocycles in the electric vehicle market.

Aptera just bagged \$9 million to build their three-wheeled solar "egg"; With a 400-mile range and 40 miles of "free" daily sun-juice, it's either the future of transport or a very expensive way ...

From its minimalist interior to its solar-smart exterior, it's not just an EV -- it's the electric revolution reshaping how we travel.

Aptera, a startup from California, hopes to finally start production ...

Built by a brand called Aptera Motors, a startup from California, the futuristic EV is powered by a 42 kWh battery and solar panels that can add up to 40 miles of range per day, or ...

## Three-wheeled and four-wheeled solar generators

Our portable solar-powered generators & solar panels deliver reliable off-grid power. No fuel & no fumes. Perfect for outdoor adventures & emergencies!
