What are container specifications & global cargo transportation options (FCL/LCL)?

Understanding container specifications (TEU/FEU) and global cargo transportation options (FCL/LCL) allows businesses to optimize their cargo space and reduce expenses. An international shipping company may quote different rates based on how efficiently you can utilize container space.

What is a full container load?

A full container load (FCL) is where the shipment is to be the only one in a container. Smaller ocean freight shipments, that will be consolidated with other shipments in a container, are called less than a container load (LCL). Ocean containers are never used in air freight (although they would fit into an Anotov 225). 6. What is Terminal

What is Dat shipping & how does it work?

For DAT (Delivered At Terminal) shipping, the seller arranges all export country charges and international transit. The buyer arranges the rest. This incoterm can lead to problems as it involves two forwarders at a critical point. Where Is The Named Place For Handing Over Responsibility From The Seller To The Buyer?
