Looking to deploy an enterprise-grade ESS cabinet for commercial facilities, factories, EV charging, microgrids, or industrial parks? Wenergy provides fully integrated, outdoor-rated ESS cabinets using ...

Welcome to 2025, where power plant virtual energy storage is flipping the script on how we manage electricity. Think of it as turning clunky old turbines into nimble, grid-balancing ninjas.

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

Patented outdoor cabinet design with optimized thermal airflow (blocks dust and rain) Front/back access doors for easy maintenance; space-saving side-by-side layout reduces footprint

Suitable for both on-grid and off-grid scenarios, our cabinets convert fluctuating energy prices into predictable costs, ensuring uninterrupted power supply for production lines even during grid outages, ...

We invite you to contact our project management team to inquire about the installation process and detailed pricing for a turnkey energy storage cabinet solution for your property.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

With the patented technology of virtual synchronous machine features, it can realize the function of multiple remote free parallels without communication lines and off-grid switching;
