Are slimline cabinets IP54 or IP66?

The SlimLine Series cabinets are designed for outdoor or indoor projects and range in IP ratings from IP54 to IP66. The Slimline Range has a compact footprint which makes them ideal for smaller spaces. Designed and manufactured in Australia, the range brings a fresh modern look to energy storage.

What is a custom built Battery Cabinet?

AUS-POWER Batteries custom built battery cabinets are the ideal solution for those larger installations or anyone requiring a secure, professional and practical installation. The cabinets contain two lockable doors (front and back) and removable side panels for easy access.

What are pre-wired cabinets?

Our pre-wired cabinets minimise the time required to install batteries and inverter equipment on-site. Ranging from small battery enclosures to cabinets, including gear trays you can pre-build and test in the workshop, simplifying site installation. Suitable for protected environments, our Rack cabinets make the most of the available floor space.

Can ICS battery enclosures be custom designed?

ICS battery enclosures, cabinets, and battery racks can be manufactured as standard or custom designed to accommodate any battery string configuration.
