-----

Named "Zhuri," which means "chasing the sun," the space solar power station (SSPS) project was launched six years ago, led by scientist Duan Baoyan, a member of the Chinese ...

A research team from Xidian University has wrapped up the world's first full-chain, system-wide ground verification for space solar power station this month, displaying multiple key know-hows for the ...

The project covers an area of about 2,500 mu, and it is the largest offshore photovoltaic power plant in Fujian Province. Zhongbo Group has formulated differentiated design schemes according to local ...

The world's highest altitude solar thermal power station and Tibet Zabuye Source-Grid-Load-Storage Integrated Energy Project, which was contracted by PowerChina EPC, has been fully ...

China has unveiled the world's first dual-tower solar thermal power station in the Gobi Desert, using 27,000 mirrors to generate renewable energy round the clock, a landmark in clean ...

It is the world's first project to use a trough-type photo thermal power plant as the main power source, realize clean energy from an isolated grid operation at a highaltitude and provide a 24-hour safe, ...

This isn't science fiction--it's China's ambitious plan to build a 1-km-wide solar array in geostationary orbit, 36,000 km above our planet. Set to beam clean energy to Earth via microwaves, ...

As of April 2025, three biomass projects have been completed and put into operation. In the next three years, we will fully focus on the biomass business and develop into a leading enterprise in the ...

Zhaoyu Solar PV Park is a 30MW solar PV power project. It is located in Hebei, China.
